Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date:

8/28/08

Comments must be submitted by September 30, 2008.

No mention has been made of the impact on where the EJ&E passes through West Chicago & Pioneer PARK having been a THORIUM Superfund Cleanup AREA. They were not to re-disturb the soil medium following the Remediation of the radioactivity.

The noise level is already @ 65dB's now on the line w/ ETRC staging their trains as they idle loudly for hours waiting for the Union Pacific West line to clear the crossing so they can pass.

We already cannot have our windows open as ~~if~~ the noise of the train drowns out sound in the home

The fumes from the trains passing are much worsened by the delayed & idling locomotives
* People moved out to the suburbs to escape the rail yard congestion - A way of life & an American dream will be destroyed by moving this freight traffic to the suburbs - People are more important than profits

YOUR INPUT IS IMPORTANT!
