To Whom it may Concern: 1-4-86-8

My husband & I live in Carillon
Lakes. We would be highly affected
by a train every 30 minutes. In fact,
most trains now have over 135
cars, and take 10 minutes or more
to pass. Do the math: That's 20 minutes
no train, 10 minute train etc.

There is no way for us to go "around". My
husband works at Home Depot, & I go to
Onovera St Joseph Wooded Recreation Center 5
days a week. (And just imagine trying to
get to the hospital!) Here is a map of
our daily Route:

Please reconsider, or build a bridge over

It, on one crossing or the other,
preferably on Division St. Please don't
block us in, or cause us to use twice
as much gas by going to Weber.

This would affect all the people in
Carillon & Grand Haven, & puts our
lives in danger in case of an
emergency.
