Commenter: Jane Kirchner

Organization: National Wildlife Federation Action Fund

State: District of Columbia

Agency: Surface Transportation Board

Initiative: Tongue River Railroad

Submission Text

Attached are the names and contact information for 31,530 National Wildlife Federation Action Fund supporters who are submitting the following comments(received individually via NWFAF online form): I have serious concerns over the impacts of the proposed Tongue River Railroad. The Tongue River Railroad would be constructed for one purpose: to allow for the mining of coal in the remote Otter Creek basin, a haven for wildlife like mule deer and pronghorn. The railroad will harm wildlife every step of the way along its route. Vital habitat will be fragmented by new roads, power lines and the rail line itself; interfering with migration patterns; and resulting in an increase in dangerous train and vehicle collisions, among other impacts. The railroad will also allow for the development of the proposed Otter Creek mine which would be the biggest in the country, stripping out coal to be shipped overseas. The coal from this mine would be sent to ports on the West Coast, polluting and harming communities and habitat along the way. When the coal is burned in power plants in Asia, the resulting carbon pollution will further fuel climate change. We don't need risky rail projects that threaten wildlife and people so coal can be shipped overseas and fuel global warming. Please reject the Tongue River Railroad. Thank you.
