Message:

My husband and I are completely against this proposition. Six years ago we purchased our property knowing that there were only a few trains passing per day and that the cargo did not consist of haz. materials. We also moved here from Chicago to escape the pollution, noise and congestion and enjoy the beautiful forest preserve and the animals of nature. The quality of life will be stripped from my 2 children, my husband and I. We will live next to noise, experience congestion on the roads, breathe pollution while we play in the yard, and have much more probability of haz. materials spilling in my yard (where my water supply comes from). This will also decrease our property value.
