

Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: Aug 27, 2008

Comments must be submitted by September 30, 2008.

When I first learned of the proposed CN acquisition of the ES&E line I charged that Government over sight would fully evaluate the proposal and provide a statement founded on fact and projections that would guarantee zero to minimal impact to the Health, Safety, and Economic well being of Barrengen and its residents. Months later I am completely lost and damaged over the apathetic representation the STB has provided. This is only compounded by the offensive "PATRONAGE" that this organization has displayed. Additionally, allowing CN, A Canadian Corporation to Bully my community and my Government into ramming this down our throats. I do not appreciate this as a father of 4 daughters who will be at risk DAILY with 20+ trains crossing through our town. I do not appreciate this as a U.S. Citizen who works hard to provide a quality of life for my family that will now be damaged forever. I do not appreciate this as a responsible adult who respects integrity and fair play. As neither the NTSB or CN has either.

This action must be stopped until a reasonable solution is worked out.
