815-485-6802. I attended the meeting last night down at Lincoln Way High School and they brought up a lot of points that I agree with as far as, as far as the acquisition of the EJ&E to, by CN, Canadian National. If I had a vote or anything to say about it, I'd say that we should not let that go through. It's way out of, it's not good for us at all. That, they're saying that they were there before us and everything else, but the Pony Express was there when the railroad was built, we're moving into, we're in the twenty-first century, not the nineteenth. So, I'm just voting against it, hopefully people will listen to my voice and somebody else's. Thank you
