Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC-
AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER LINE BETWEEN DALLAS, TX AND HOUSTON, TX

REPLY TO PETITION FOR CLARIFICATION

Comes now Texans Against High Speed Rail, Inc. ("TAHSR") and files its Reply to the Petition for Clarification ("Petition") filed by Texas Central Railroad and Infrastructure, Inc. & Texas Central Railroad, LLC ("TCR").

TAHSR is an organization dedicated to opposing TCR's proposed high-speed rail line. TAHSR's stated goals are to protect private property rights, maintain efficient modes of transportation, and prevent the wasteful use of taxpayer dollars or public subsidies for high-speed rail transportation. TAHSR's members include citizens, private property owners, farmers, ranchers, business owners, interested organizations, and elected officials from all across Texas who share TAHSR's core belief of combating the abuse of eminent domain power for private, economic use, and preventing unnecessary government subsidies.

As a preliminary matter, TAHSR requests that the Board resolve the basic issue of whether it has jurisdiction over TCR's proposed high-speed rail line between Dallas and Houston, Texas (the "Project"). TAHSR believes the Board lacks jurisdiction over TCR's Project because it is an interurban electric railway that is not and will not be operated as part of the general system of rail transportation, or as a part of the interstate rail network. In the event the Board determines it has jurisdiction, TAHSR requests that the Board deny TCR's Petition on the merits.

Stripped to its bare essentials, TCR is asking the Board to allow it to begin eminent domain proceedings in Texas even *before* the final alignment of the right-of-way for the Project has been set, and before the Project has been approved by the Board. As TCR cavalierly admits in its Petition, "[TCR] recognizes that it may acquire property rights in locations not ultimately identified as the final alignment," but TCR "is willing to accept this risk because its construction schedule is central to its business model …"[1] With this attitude, TCR can be expected to run rough shod over the rights of Texas landowners. Without question, TCR's position is a classic example of putting the cart before the horse.

I. THE BOARD LACKS JURISDICTION OVER THE PROJECT.

A. TCR's Project is an intrastate, interurban electric railway.

A "rail carrier" is defined at 49 U.S.C. § 10102(5) as "a person providing common carrier railroad transportation for compensation, but does not include street, suburban, or interurban electric railways not operated as part of the general system of rail transportation." (emphasis added). To be sure, TCR has judicially admitted on multiple occasions that it is an interurban electric railway company. TCR has filed at least four verified petitions in Texas state court, alleging that its Project is "an electric railway as that term is used in Section 131.012 et. seq. of the Texas Transportation Code." (emphasis added).

Section 131 deals solely with Interurban Electric Railway Companies and provides in pertinent part:

> Sec. 131.011. DEFINITION. In this subchapter, "interurban electric railway company" means a corporation chartered under the laws of this state to conduct and operate an electric railway between two municipalities in this state.

[1] Petition for Clarification at 4, n.13.

> Sec. 131.012. EMINENT DOMAIN. A corporation chartered for the purpose of constructing, acquiring, maintaining, or operating lines of electric railway between municipalities in this state for the transportation of freight, passengers, or both freight and passengers may:
>
> (1) exercise the power of eminent domain with all the rights and powers granted by law to a railroad company

Consistent with Section 131.011, both Petitioners here, Texas Central Railroad and Infrastructure, Inc., and Texas Central Railroad, LLC, are chartered to conduct and operate an Interurban Electric Railway. The proof of this is found in the records of the Secretary of the State of Texas.[2] [3]

B. The Project will not be operated as part of the interstate rail network.

Unlike the situation in *California High-Speed Rail Authority—Construction Exemption—In Merced, Madera and Fresno Counties, CAL,* FD No. 35724 (STB dated June 13, 2013) ("*Cal-HSR*"), it is clear the Project will not result in TCR being made a part of the "interstate rail network" within the coverage of 49 U.S.C. § 10501(2)(A). According to the *Alignment Alternatives Analysis Report* prepared by the Federal Railroad Administration ("FRA"), dated

[2] Petitioner Texas Central Railroad and Infrastructure, Inc. was originally formed on December 20, 2012 under the name of TXHS Railroad, Inc. On January 21, 2015, TXHS Railroad amended its name to Texas Central Railroad and Infrastructure, Inc. ("TCRI"). The Certificate of Amendment is attached as Exhibit 1. In the Certificate, TCRI states: "The purpose for which the Corporation is organized is to plan, build, maintain and operate an interurban electric railroad…"

[3] Petitioner Texas Central Railroad, LLC was originally formed on December 19, 2012, under the name of TR Central LLC. On January 15, 2015, TR Central LLC amended its name to Texas Central Railroad, LLC. The Amendment to Registration is attached as Exhibit 2. In the Amendment, Texas Central Railroad, LLC states: "The business or activity that the entity proposes to pursue in this state is: to plan, build, maintain and operate an interurban electric railroad."

November 6, 2015, the Project will not connect with any existing line of railroad that is part of the general system of rail transportation.

TCR claims that "the Texas Central Line is clearly a line of national (rather than solely intrastate) significance," because it "will operate the first true high-speed passenger rail service in the United States, offering up to 34 daily departures in its initial service plan, in each direction between two of the nation's largest metropolitan areas."[4] However, alleged "significance" does not confer jurisdiction or alter statutory language. Likewise, TCR's intrastate operations do not *per se* bring the Project into the general system of rail transportation or the interstate rail network.

TCR also claims that its Project "will create a connection between the Amtrak routes serving Dallas and Houston."[5] In fact, based on the FRA's *Alignment Alternatives Analysis Report,* it is clear that <u>there is no actual physical connection to any track over which Amtrak operates</u>. Although it may be that passengers could be off-loaded from TCR and bused several miles to the Houston Amtrak station, that does not establish an actual rail connection. At best, potential station sites in Dallas are said to be "in close proximity to the Dallas Union Station" and to "the existing rail lines operated by Dallas Area Rapid Transit (DART)."[6] "Close" does not confer jurisdiction. Once again, TCR's line will not be part of the general system of the interstate rail network.

Fearing that the Board may well realize there is no interstate connection sufficient to establish federal jurisdiction, TCR theorizes that "potential for connections with <u>future</u> high-speed passenger rail systems" will convince the Board to accept jurisdiction.[7] (emphasis in original). It is axiomatic that jurisdiction either exists, or it does not. Hopes for future expansion and connection are simply conjecture, and jurisprudence has never allowed hope to confer jurisdiction

[4] Petition for Exemption at 15.
[5] Petition for Exemption at 17.
[6] Petition for Exemption at 18.
[7] Petition for Exemption at 19.

where none exists. Even if future potential may exist, it does not alter the current reality that presently there is no physical connection with the general system of rail transportation or the interstate rail network. Nor is there any merit to TCR's effort to boot strap itself into the general system of rail transportation through the self-serving claim that it is willing "to consider cooperative efforts in conjunction with passenger rail providers serving points beyond Texas."[8]

The lack of physical connections with Amtrak or the general rail system stands in sharp contrast with the Board's review of the California High-Speed Rail Authority's Revised Business Plan. As the Board explained, the Authority's "blended" approach to the construction and operation of the HST System would involve "the integration of high-speed trains with existing intercity and commuter/regional rail systems via coordinated infrastructure … and scheduling, ticketing and other means."[9] None of those jurisdictional conferring factors exist here.

In *Cal-HSR*, the Board also highlighted the fact that "the Authority's business plans and environmental documents indicate that Amtrak operations over the HST System prior to the initiation of high-speed rail operations would be a key component of its blended implementation strategy."[10] Interconnectivity with Amtrak operations would be achieved by servicing terminals that would provide "connections to Amtrak's long-distance interstate routes."[11] By way of example, the Board noted that "Los Angeles Union Station, the preferred HST station option to serve Los Angeles, is the primary destination for several existing passenger rail services, including Amtrak's intercity service (Pacific Surfliner) and four interstate lines (Southwest Chief, Texas Eagle, Coast Starlight, and Sunset Limited)."[12]

[8] Petition for Exemption at 20.
[9] 2013 STB Lexis 180, *10.
[10] 2013 STB Lexis 180, *26.
[11] 2013 STB Lexis 180, *28.
[12] 2013 STB Lexis 180, *28-29.

In finding jurisdiction, the Board identified several factors on which it based its decision:

1. Extensive interconnectivity with Amtrak;
2. Interstate passenger service;
3. Stations connected to Amtrak;
4. Amtrak would operate on the tracks; and
5. Blended operations with Amtrak.

The Board stated "we are finding jurisdiction over the construction of a proposed passenger rail service that would entail extensive interconnectivity with Amtrak, an interstate passenger service, both in having 'preferred' station sites that would allow passengers to connect and access Amtrak, as well as having Amtrak operate on the lines to be constructed. These 'blended operations' with Amtrak establish a sufficient link to the interstate rail network to bring this Project within the Board's jurisdiction."[13] The same cannot be said of the TCR's proposed "closed system," as illustrated by the following chart:

Cal-HSR Jurisdictional Factors	**Texas Central's HSR**
1. Extensive interconnectivity with Amtrak	NONE
2. Interstate passenger service	NONE
3. Stations connected to Amtrak	NONE
4. Amtrak would operate on the tracks	NO
5. Blended operations with Amtrak	NONE

[13] 2013 STB Lexis 180, *30.

The FRA has acknowledged that TCR's high-speed train "will run on dedicated HSR tracks for passenger rail service only and cannot travel on other rail lines."[14] Conversely, other trains would not be able to use TCR's tracks.

Vice Chairman Mulvey in his dissenting opinion in *All Aboard Florida—Operations LLC and All Aboard Florida—Stations—Construction and Operation Exemption—In Miami, Fla. And Orlando, Fla,* FD 35680 (STB served December 21, 2012), raised important questions to be considered in a jurisdictional analysis such as the one here:

- First, does the planned project perform within an existing interstate freight rail line right of way?
- Second, will the planned project's newly constructed line carry an existing rail carrier's freight traffic?
- Third, will the new line have a terminal at or near a hub for interstate commerce?

Regarding the first question, TCR's operations will not be performed "within an existing interstate freight rail line right-of-way."[15] As to the second question, TCR's proposed line will not be able to carry an existing rail carrier's freight traffic along with TCR's passenger traffic. And as for the third, TCR's line will not have a terminus at or near a hub for interstate commerce. Simply put, the issues raised by Vice Chairman Mulvey confirm the lack of jurisdiction.

On a related note, although the Orlando International Airport Authority may have been "using the prospect of the AAF line to market the Orlando airport as an emerging 'intermodal gateway'," [16] none of the four airports in Dallas and Houston have taken any steps to market any connection with TCR. Dallas Love Field, which is the home base of Southwest Airlines, has done

[14] FRA, Dallas to Houston High-Speed Rail Environmental Impact Statement, Scoping Report, April 2015, at 3.
[15] *All Aboard Florida*, slip op. at 5 (Mulvey dissent).
[16] *Id*.

nothing to align itself with TCR. The same is true of Hobby Airport and George Bush Intercontinental Airport in Houston and Dallas/Fort Worth International Airport. Finally, marketing outside the State of Texas and on the internet will not alter the intrastate character of a "closed system" operating only between Houston and Dallas, outside of the national rail network.

In order to conserve the Board's financial resources, as well as those of all parties and individuals who will be financially harmed if forced to participate in premature condemnation proceedings, the Board should immediately resolve the fundamental issue of whether it has any jurisdiction over the proposed Project. Regarding this determination, for all of the above-stated reasons, the Board should find that it has no jurisdiction over the Project. If the Board concludes that it lacks jurisdiction, it should summarily dismiss TCR's pending petitions.

II. TCR'S PETITION FOR CLARIFICATION SHOULD BE DENIED EVEN IF THE BOARD FINDS IT HAS JURISDICTION OVER TCR'S PROJECT.

TCR disguises its Petition as merely a request for a simple clarification. In reality, TCR is asking for much, much more:

- First, TCR asks for permission to circumvent existing Fifth Circuit law;
- Second, TCR asks for a ruling to use against the substantive rights of Texas landowners under Texas eminent domain law; and
- Third, TCR wants all of this done on an expedited basis, due to undisclosed constraints related to its poor financial planning.

TCR's request brings to mind the signage found above the desk of many a wizened legal secretary:

The financial instability of a poorly capitalized start-up cannot justify a fast-track approach that denies due process to citizens, and threatens to short-cut legal rights of citizens and local government. As Judge Brown recognized in *Tampa Phosphate Railroad Company v. Seaboard Coast Line Railroad,* 418 F.2d 387, 402 (1969) (Brown concurring), behind what is now § 10901 "is a congressional determination born of scandals that rocked the nation in high and low places growing out of the promotion of railroads, the saddling of the investing and shipping public with heavy burdens occasioned by uneconomic expansion of facilities." As will be conclusively demonstrated in TAHSR's Reply to TCR's Petition for Exemption, there remain significant questions and concerns regarding both the short- and long-term financial viability of the Project.

A. TCR wants this done in a hurry.

TCR sought this clarification on a fast-track application with no notice to any interested party. For many months, TCR, through its land agents, have been in constant contact with every affected landowner up and down the affected corridor, including the individuals who are part of the TAHSR coalition, hounding them for permission to survey. One simple email blast and mass mailing alerting landowners to the fact that TCR would file its Petition for Clarification and its

Petition for Exemption before the close of the ongoing Draft Environmental Impact Study review would have provided due process to all of the affected parties. Shockingly, TCR notified no landowners, seeking instead to launch an expedited sneak attack. Luckily, TAHSR located TCR's filing and notified landowners. One of the prominent landowners requested from TCR a four-week extension due to the magnitude of the relief sought in TCR's Petition. TCR refused that request, and would only grant a ten-day extension. Only after the Board confirmed the extension, and TCR's plan for an uncontested ruling was foiled, did TCR deign to notify anyone. TCR sent an email on May 6th, the day before the original due date, in which it offered the cynical statement that it welcomed public comment, and "supported" the landowners request for an extension.

TCR claims it "needs" to begin eminent domain proceedings now, before the Board has even considered or approved the Project for construction, in order to meet "key milestones within defined time frames."[17] But TCR has not provided the Board with its business plan, construction schedule, or any other relevant information, so there is no way for the Board to verify the "key milestones." Moreover, even if the Board were to approve the Project, its decision would likely be subjected to judicial review. And, if the Board were to deny approval or impose mitigation conditions that TCR and its lenders determine are too onerous to accept, the "key milestones" may not be worth the paper they are written on.

The Board is urged to follow its reasoning expressed in *California High-Speed Rail Authority—Construction Exemption—In Fresno, Kings, Tulare, and Kern Counties, Cal.* ("*Cal-HSR II"*), F.D. 35724 (Sub-No. 1) (STB served December 4, 2007), where the Board rejected the Authority's request "that the Board conditionally grant the exemption authority by addressing the transportation aspects of the project in advance of the environmental issues."[18] In *Cal-HSR II*, the

[17] Petition for Clarification at 4.
[18] *Cal-HSR II,* slip op. at 2.

Authority claimed to the Board that it was required to give its contractor a notice to proceed with construction by a certain deadline.[19] The Authority stressed further that if it could not issue the notice to proceed, it would have to renegotiate the price of construction, which would result in a substantial increase in the cost of construction.[20] These are essentially the same arguments TCR is making in its Petition.

Because TCR's position cannot be readily distinguished from that in *Cal-HSR-II,* the Board should once again make it clear that even if an applicant chooses to rely on self-imposed milestones and contractually agrees to begin construction by a certain date, that "is not a sufficient basis for the Board to carry out its independent statutory obligation in a piecemeal fashion. Moreover, no construction may begin until after the environmental review is completed and the Board issues its final decision. Neither a contractual obligation nor a notice to proceed can change that fact." *Cal-HSR-II* at 2.

Furthermore, one must question who imposed TCR's alleged milestones. Was it potential lenders or was it TCR? Either way, the Board should not allow itself to be pressured simply because TCR and a potential lender, such as the Japan Bank for International Cooperation,[21] or smaller investors generated by TCR's Irish-based financial marketing firm Rubicon Infrastructure Advisors,[22] imposed unrealistic milestones that deny due process to U.S. citizens. TCR magnanimously claims to be a good neighbor, only willing to use eminent domain as a last resort. But had TAHSR not discovered the Petitions, TCR would have taken this relief as a default against Texas landowners. TCR's true nature is shown by its lack-of-notice attack on citizen's rights.

---

[19] *Id*.
[20] *Id*.
[21] According to various newspaper articles, the Japan Bank for International Cooperation is offering to cover half the costs of TCR's Project.
[22] Rubicon Infrastructure Advisors is an Irish Investment firm that TCR used to market the sale of their Equity Stake offering in 2015.

B. TCR makes a particularly unfair request.

As the Interstate Commerce Commission ("ICC") recognized in *Nicholson v. Missouri Pacific R.R. Co.,* 366 I.C.C. 69, 71 (1982), permitting condemnation proceedings to begin before the Board has reached a decision regarding its jurisdiction "would be particularly unfair." The same is true here, where the premature institution of condemnation proceedings would require persons whose property may not ultimately fall within the approved right-of-way to bear a financial burden in order to protect their rights under Texas law. Moreover, such premature proceedings would clog the court systems with thousands and thousands of unripe cases, requiring the needless expenditure of scarce judicial resources.

C. TCR improperly seeks the Board's assistance to circumvent federal law.

Nicholson was not a case of first impression. The stated principle that condemnation proceedings may not be started until the Board's approval has been obtained can be traced to *Gilmore v. Sandersville Railroad Company,* 149 F. Supp. 725 (1955). In *Gilmore,* the court enjoined the railroad "from taking any further steps in connection with said condemnation proceedings relating to lands or properties of Plaintiffs, unless and until a certificate of public convenience and necessity is granted by the Interstate Commerce Commission authorizing extension of its lines pursuant to section1(18) of the Transportation Act of 1920." *Id.* at 728.

As the Fifth Circuit recognized in *Tampa Phosphate Railroad Company v. Seaboard Coast Line Railroad,* 418 F.2d at 39:

> There appears to be no serious question that an attempt to condemn lands for the purpose of constructing new trackage thereon without first acquiring a certificate from the Interstate Commerce Commission constitutes "construction" within the meaning of this statute. (citing to *Gilmore*). Any uncertainty in this regard should be resolved in favor of coverage in view of the national interests to be protected. (emphasis added).

Given the ICC's comment that "[w]e agree with court in *Tampa Phosphate* that the condemnation of right-of-way to construct a railroad line is 'construction' which triggers the approval requirements of 49 U.S.C. 10901," it is clear that the ICC, the Fifth Circuit, and the U.S. District Court in Georgia have looked well beyond narrow dictionary definitions and have focused on the big picture and the fundamental unfairness to property owners of allowing condemnation proceedings to begin before the Board has reached a final decision. The Board should do the same.

Furthermore, there is no merit to TCR's suggestion that state courts in Texas "will not be familiar with the Board's decisions, and would benefit from a clear statement interpreting the scope of 'construction' under section 10901."[23] The concept set out in *Nicholson* and the federal precedents upon which the ICC relied are clear. Even if state courts may not be familiar with the Board's decisions, they will have no problem following the Fifth Circuit's explicit statement. Moreover, it is doubtful any court will overlook the implications of the ultimate holding in *Tampa Phosphate* that a federal district court has the power to issue an injunction against premature condemnation proceedings. Therefore, the Board should reject TCR's thinly-veiled collateral attack on what the Fifth Circuit has recognized to be a settled matter.

If the Board were to grant TCR's requested clarification, it would create dangerous precedent by prematurely imputing "rail carrier" status to TCR before the Board has made this determination. Despite having no Board authority, TCR will likely rely upon the Board's decision to support its alleged "rail carrier" status in any future dispute in Texas courts regarding whether TCR can properly invoke eminent domain as a "railroad." In short, TCR is seeking "clarification" that it has the power of a Board-authorized rail carrier, even though it is not one.

[23] Petition for Clarification at 10.

D. The Board should not interpret Texas law.

TCR is asking the Board to instruct Texas state courts as to when eminent domain may or may not be used with respect to rail projects in Texas. While Texas eminent domain proceedings are complicated enough, TCR complicates them further by promising not to exercise the right of possession for properties whose values are determined in the proceedings, even though such rights exist solely under Texas law.[24] In any event, the proper application of Texas eminent domain statutes is beyond the Board's jurisdiction, and the Board should not indulge TCR's request to interpret Texas law. *See, e.g., Tongue River Railroad Company, Inc. – Rail Construction and Operation – In Custer, Powder River and Rosebud Counties, Mont.*, STB Docket No. 30186, slip op. at 13 (served Mar. 22, 2013) ("The Board plays no role in any eminent domain proceedings and does not approve or disapprove any condemnation of private property under state law.").

Moreover, the Board can only direct state courts on eminent domain when they are considering actions that would affect a Board-authorized rail project.[25] To reiterate, TCR is not a Board-authorized rail carrier, and its proposed Project has not been approved by the Board. Consequently, the Board cannot "clarify" state law or tell Texas state courts how eminent domain disputes should be adjudicated.

Rather than being authorized by the Board, TCR is merely a recently-established entity that calls itself a railroad and acts as if it has eminent domain. The question as to whether this is sufficient, under Texas law, to commence eminent domain proceedings is currently being litigated in Texas state court. If and when TCR's proposed Project is authorized by the Board, then the state eminent domain law must operate without creating an insurmountable barrier for the Project.[26] But

[24] Texas Property Code § 21.021.
[25] *Dakota, Minnesota & Eastern RR v. South Dakota*, 236 F. Supp.2d 989, 1006-1009 (D.S.D. 2002), aff'd in part & rev'd in part on other grounds, 362 F.3d 512 (8th Cir. 2004).
[26] *Id.*

until such approval is granted, it is for Texas courts to decide if TCR can engage in any part of the eminent domain process.

E. Over 1,500 affected Texas landowners wish to voice their opposition to TCR's Petition.

Attached as Exhibit 3 are more than 1,500 verified statements from Texas landowners who are adamantly opposed to the Project and to the relief requested by TCR in its Petition.[27] The mere fact that TAHSR was able to collect this many verified statements on such short notice speaks volumes to the widespread, consolidated opposition in the affected region. In the statements, these concerned citizens and landowners state that although TCR is willing to accept the risk that may result from prematurely initiating condemnation proceedings on property that might not ultimately be needed for construction, they are unwilling to do so. They do not want to "suffer such abuse through the eminent domain process." In addition, they feel strongly that it "is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it." As the formal representative of these concerned citizens and landowners, TAHSR respectfully requests that the Board give these statements full consideration.

III. THE BOARD SHOULD REJECT TCR'S ASSERTION THAT THE INITIAL PHASE OF THE CONDEMNATION PROCEEDINGS IS A MERE ADMINISTRATIVE EXERCISE.

In its Petition, TCR cites the controlling statutory provision that governs condemnation proceedings, but fails to mention the burdens that are placed on the owner of property being condemned from the inception of the condemnation process.[28] In order for the Board to fully

[27] The verified statements can be viewed online at: https://onedrive.live.com/redir?resid=100BC1D1C9651F19!127&authkey=!AM0_OYNepJ7YbEk&ithint=file%2cpdf.

[28] Petition for Clarification at 5, n.16.

appreciate the situation, attached to this Reply as Exhibit 4 is the intricate maze of requirements that are placed on landowners by provisions of the Texas Property Code. These provisions unquestionably would require the landowner to participate in a premature condemnation proceeding even if the owner's property was not subsequently included in any alignment that may be approved. Furthermore, given the complexity of the Texas Property Code, it would be necessary to hire an attorney to ensure that the property owner does not waive any rights and that TCR fully complies with Texas condemnation law in all respects. Landowners would also be required to hire expensive expert witness appraisers. Landowners would be required to do all of these things even though TCR might not end up needing the property being condemned.

IV. TCR'S CLARIFICATION WOULD PREJUDICE LANDOWNERS' ABILITY TO HIRE ATTORNEYS.

Attached as Exhibit 5 to this Reply 5 is the verified statement of Glenn Sodd, esq. Mr. Sodd is one of Texas' most highly respected eminent domain lawyers. He has represented landowners for the past 35 years, 90% of the time on contingency.[29] If the Board were to grant TCR's extraordinary and unprecedented Petition, landowners would be forced into the untenable position of approaching contingency fee attorneys, like Mr. Sodd, on a case that might or might not proceed to fruition.[30] According to Mr. Sodd, this significant uncertainty will chill landowners' ability to find qualified counsel, and prejudice landowners by dissuading attorneys from engaging on a contingent basis.[31] Mr. Sodd's verified statement also describes additional harm landowners would suffer were the Board to grant TCR's Petition.[32] For a variety of reasons detailed in his statement, Mr. Sodd believes it "is an abuse of process to bring condemnation proceedings against

[29] Exhibit 5, Sodd V.S. at ¶ 1, 7.
[30] Exhibit 5, Sodd V.S. at ¶ 6.
[31] Exhibit 5, Sodd V.S. at ¶ 7-8.
[32] Exhibit 5, Sodd V.S. at ¶ 9, 12-14.

landowners before a final determination is reached as to whether the Project will be approved by the Board."[33]

V. TCR SEEKS A RULING TO USE AGAINST TEXANS IN TEXAS STATE COURT.

Again, the Board should focus on the callous nature of TCR's position. TCR's CEO Tim Keith swears that it would "accept the risk" of condemning property that it does not need.[34] First, condemning unnecessary property is directly contradicted by Texas state law.[35] More importantly, the Board must protect Texas citizens from the risk that their property values plummet under the specter of eminent domain proceedings that may never proceed to fruition.[36] TCR's arrogant approach ignores the significant risk to landowners, a risk landowners are unwilling to bear, as evidenced by the 1,500 verified statements in opposition to TCR's Petition. TCR appears to have no concern regarding the obvious pressure that would be placed on landowners to hire an attorney and an expensive expert appraisal witness, and to respond and participate in the opening stage of a condemnation proceeding.

The Board should reject the contrived argument that "TCR is preparing to use its eminent domain powers to establish the value—but not take physical possession—of the property rights it seeks to acquire."[37] Even if that assertion could be taken at face value, it cannot overcome the fact that it would be a patent abuse of process to commence unripe condemnation proceedings before a final determination is reached as to whether the Project will be approved by the Board.[38] After all, the Board's prior approval for the construction of a line of railroad has been a condition precedent since 1920. With its army of lawyers, TCR must have been aware of this black letter

[33] Exhibit 5, Sodd V.S. at ¶ 12.
[34] Petition for Clarification, Keith V.S. at ¶ 6.
[35] Exhibit 5, Sodd V.S. at ¶ 3-5.
[36] Exhibit 5, Sodd V.S. at ¶ 9.
[37] Petition for Clarification at 5.
[38] Exhibit 5, Sodd V.S. at ¶ 11-12.

requirement when it created its business plan used to solicit its investors. TCR should be estopped from trying to circumvent a 90-year-old law just because it has shaky finances.

TAHSR acknowledges that TCR is free to negotiate with landowners who are willing to negotiate prior to the Board's decision. TAHSR is also aware that TCR has been actively engaged in such negotiations. Landowners up and down the corridor have been approached by TCR with a near illusory option-type arrangement, where 25% of the purchase price is put down as an option payment, and TCR is never required to close, but ties the property up for 43 months—until December 31, 2019.[39] This odd arrangement further demonstrates that TCR is undercapitalized. TCR keeps telling the public that it will be selling tickets by 2021, yet it may not be closing purchases on land until the eve of 2020. However, if these negotiations come to an impasse, landowners, who are unaware of their legal rights and the intricacies of the condemnation procedures and cannot afford to hire an attorney to protect their interests, will be harmed.[40]

Finally, if TCR cannot prevail in the "administrative stage," it will undoubtedly file a condemnation lawsuit, even if the Board has not yet reached a final decision. If TCR were to take physical possession of property after concluding condemnation proceedings, but prior to the Board's decision, how would the Board be able hold TCR to its commitment not to take physical possession?

VI. CONCLUSION.

In seeking "clarification," TCR is placing its own self-interest above the public interest. Allowing TCR to commence eminent domain proceedings before the final alignment is chosen and prior to authorization of the Project would subject landowners to potential burdens that far outweigh TCR's desire to meet its self-imposed deadlines. The balance of equities strongly favors

[39] Exhibit 6 (TCR term sheet).
[40] Exhibit 5, Sodd V.S. at ¶ 13-14.

denial of the requested "clarification." TCR's cavalier attitude toward the potential costs and burdens that it seeks to impose on landowners, whose property may not be included in the final alignment, should not be condoned by the Board. For these reasons, TAHSR respectfully requests that the Board dismiss the Petition based on lack of jurisdiction. In the event the Board determines that it has jurisdiction, TAHSR respectfully requests that the Petition be denied on its merits.

Respectfully submitted,

Certificate of Amendment

This space reserved for office use.

FILED
In the Office of the
Secretary of State of Texas

JAN 21 2015

Corporations Section

Entity Information

The name of the filing entity is:

TXHS Railroad, Inc.

State the name of the entity as currently shown in the records of the secretary of state. If the amendment changes the name of the entity, state the old name and not the new name.

The filing entity is a: (Select the appropriate entity type below.)

- ☒ For-profit Corporation
- ☐ Nonprofit Corporation
- ☐ Cooperative Association
- ☐ Limited Liability Company
- ☐ Professional Corporation
- ☐ Professional Limited Liability Company
- ☐ Professional Association
- ☐ Limited Partnership

The file number issued to the filing entity by the secretary of state is: 801704184

The date of formation of the entity is: 12/20/2012

Amendments

1. Amended Name

(If the purpose of the certificate of amendment is to change the name of the entity, use the following statement)

The amendment changes the certificate of formation to change the article or provision that names the filing entity. The article or provision is amended to read as follows:

The name of the filing entity is: (state the new name of the entity below)

Texas Central Railroad & Infrastructure, Inc.

The name of the entity must contain an organizational designation or accepted abbreviation of such term, as applicable.

2. Amended Registered Agent/Registered Office

The amendment changes the certificate of formation to change the article or provision stating the name of the registered agent and the registered office address of the filing entity. The article or provision is amended to read as follows:

TAHSR R2P 0002

Registered Agent
(Complete either A or B, but not both. Also complete C.)

☐ A. The registered agent is an organization (cannot be entity named above) by the name of:

OR

☐ B. The registered agent is an individual resident of the state whose name is:

First Name *M.I.* *Last Name* *Suffix*

The person executing this instrument affirms that the person designated as the new registered agent has consented to serve as registered agent.

C. The business address of the registered agent and the registered office address is:

Street Address (No P.O. Box) *City* *State* *Zip Code*

TX

3. Other Added, Altered, or Deleted Provisions

Other changes or additions to the certificate of formation may be made in the space provided below. If the space provided is insufficient, incorporate the additional text by providing an attachment to this form. Please read the instructions to this form for further information on format.

Text Area (The attached addendum, if any, is incorporated herein by reference.)

☐ **Add** each of the following provisions to the certificate of formation. The identification or reference of the added provision and the full text are as follows:

☒ **Alter** each of the following provisions of the certificate of formation. The identification or reference of the altered provision and the full text of the provision as amended are as follows:

Article 5 - Purpose is amended and restated in its entirety to read as follows:

"The purpose for which the corporation is organized is to plan, build, maintain and operate an interurban electric railroad, and to conduct or promote any other lawful businesses or purposes that a corporation is legally allowed to conduct or promote, within this state or any other jurisdiction."

☐ **Delete** each of the provisions identified below from the certificate of formation.

Statement of Approval

The amendments to the certificate of formation have been approved in the manner required by the Texas Business Organizations Code and by the governing documents of the entity.

Effectiveness of Filing (Select either A, B, or C.)

A. ☒ This document becomes effective when the document is filed by the secretary of state.

B. ☐ This document becomes effective at a later date, which is not more than ninety (90) days from the date of signing. The delayed effective date is: _____

C. ☐ This document takes effect upon the occurrence of a future event or fact, other than the passage of time. The 90th day after the date of signing is: _____

The following event or fact will cause the document to take effect in the manner described below:

Execution

The undersigned signs this document subject to the penalties imposed by law for the submission of a materially false or fraudulent instrument and certifies under penalty of perjury that the undersigned is authorized under the provisions of law governing the entity to execute the filing instrument.

Date: _____

By: _____

Signature of authorized person

Mark M. Walker

Printed or typed name of authorized person (see instructions)

Amendment to Registration

This space reserved for office use.

FILED
In the Office of the
Secretary of State of Texas
JAN 15 2015
Corporations Section

Entity Information

1. The legal name of the filing entity is:

TR Central, LLC

State the name of the entity as currently shown in the records of the secretary of state.

2. If the entity attained its registration under an assumed name, the qualifying assumed name as shown on the records of the secretary of state is:

3. The registration was issued to the entity on: 12/28/2012
mm/dd/yyyy

The file number issued to the filing entity by the secretary of state is: 801707701

Amendments to Application

4. The registration is amended to change the legal name of the entity as amended in the entity's jurisdiction of formation. The new name is:

Texas Central Railroad, LLC

5. The new name of the entity is not available for use in Texas or fails to include an appropriate organizational designation. Or, the entity wishes to amend the qualifying assumed name stated on its application for registration or amended registration. The assumed name the entity elects to adopt for purposes of maintaining its registration is:

6. The registration is amended to change the business or activity stated in its application for registration or amended registration. The business or activity that the entity proposes to pursue in this state is:

to plan, build, maintain and operate an interurban electric railroad

The entity certifies that it is authorized to pursue the same business or activity under the laws of the entity's jurisdiction of formation.

TAHSR R2P 0006

Other Changes to the Application for Registration

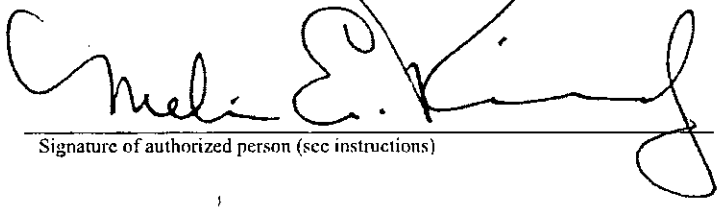
7. The foreign filing entity desires to amend its application for registration to make changes other than or in addition to those stated above. Statements contained in the original application or any amended application are identified by number or description and changed to read as follows:

N/A

Effectiveness of Filing (Select either A, B, or C.)

A. ☑ This document becomes effective when the document is filed by the secretary of state.

B. ☐ This document becomes effective at a later date, which is not more than ninety (90) days from the date of signing. The delayed effective date is: _____



C. ☐ This document takes effect upon the occurrence of a future event or fact, other than the passage of time. The 90th day after the date of signing is: _____

The following event or fact will cause the document to take effect in the manner described below:

Execution

The undersigned signs this document subject to the penalties imposed by law for the submission of a materially false or fraudulent instrument and certifies under penalty of perjury that the undersigned is authorized under the provisions of law governing the entity to execute the filing instrument.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is JOHN WYCKOFF. I live in ELLIS County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 12, 2016.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Brandy Harris. I live in Ellis County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments

It would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Scott Bryant. I live in Ellis County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Ivan Jackson. I live in Limestone County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

My name is BRENDA BEELER. I live in LEON County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 6, 2016.

Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Finance Docket No. 36025
TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is Cecil G. Miles. I live in Houston County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

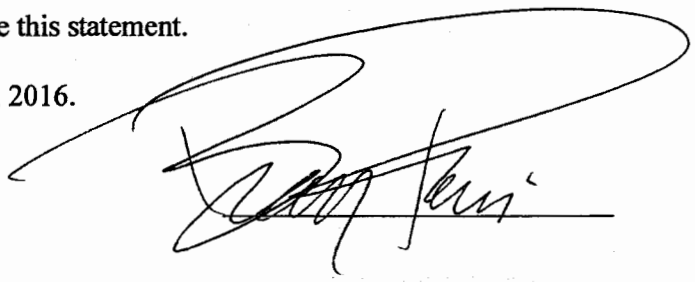
My name is Braz Davis. I live in Navarro County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing



to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Shelby Rose. I live in Freestone County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May _____, 2016.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Steve Gaines. I live in Navarro County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 8, 2016.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

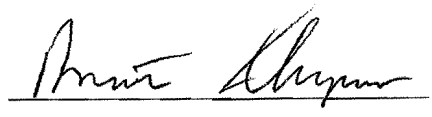
My name is Kenneth Thompson. I live in Harris County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing



to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. I live in Leon County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

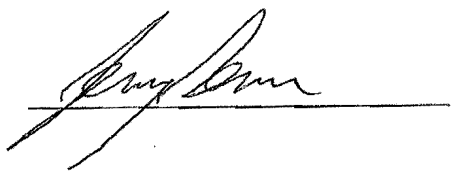
I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing



to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 7, 2016.

Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

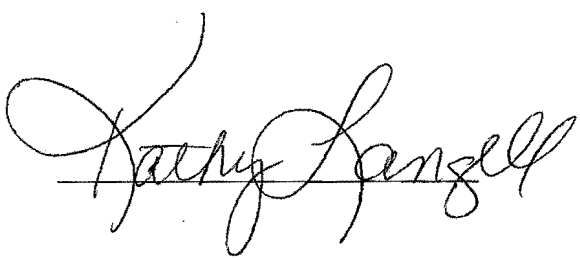
My name is Kathy Langell. I live in Limestone County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing



to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

(Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Matthew D Martin. I live in Leon County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 5, 2016.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Barbara Smith. I live in Waller County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

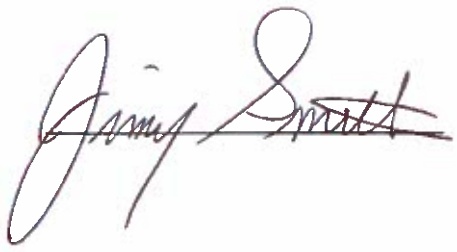
Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing



to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Connie Shivers. I live in Harris County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 5, 2016.

Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Tamara Fraley. I live in Waller County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I live in Waller County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Michael M. McCall. I live in Walker County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Flaudrey Abshire I live in Waller County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Larry Cooper. I live in Waller County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Mike Graham. I live in Walker County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Tom Gleason. I live in Montgomery County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Mary Ann Dekel. I live in Waller County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 5, 2016.

Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is RICK WELCH. I live in WALLER County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is William R. Gage, Jr. I live in Weller County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is DAVID KNAPP. I live in WALLER County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Christine Faulkner I live in Harris County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 5, 2016.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

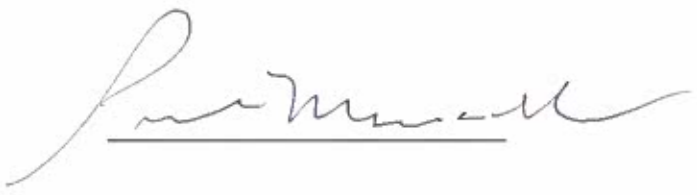
My name is Paul Marmack. I live in Harris County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing



to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Dorothy Logan. I live in Leon County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 10, 2016.

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is JOHN L. LAGRONE I live in LEON County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is Vicki Moore. I live in Leon County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 7, 2016.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Surface Transportation Board Statement

By completing and submitting the form below, The Beckham Group, the law firm selected by Texans Against High-Speed Rail to work on our behalf, will include your statement in the official comprehensive reply to the Surface Transportation Board regarding the petitions made by Texas Central Partners.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC

TAHSR R2P 0730

-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is JAMES ALEXANDER. I live in MADISON County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

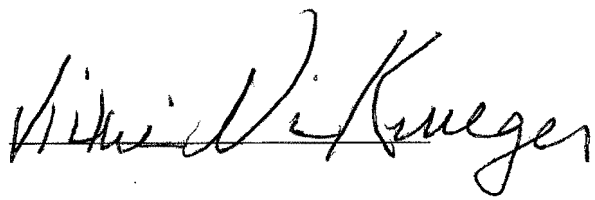
My name is Vickie Krueger I live in Limestone County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing



to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

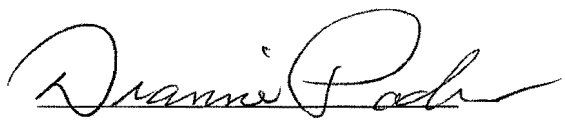
If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing



to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is CHARLES S. FLOYD. I live in GRIMES County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. BEFORE THE
SURFACE TRANSPORTATION BOARD

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

VERIFIED STATEMENT IN SUPPORT OF **TEXANS AGAINST HIGH SPEED RAIL'S** PRELIMINARY COMMENTS IN OPPOSITION TO PETITION FOR EXEMPTION AND PETITION FOR CLARIFICATION

My name is John Abell. I live in Travis County, Texas and will be affected by the 240-mile-long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing

to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is Karen Babel. I live in Grimes County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 15, 2016.

BEFORE THE
SURFACE TRANSPORTATION BOARD

_____

Finance Docket No. 36025

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

_____

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is Marsha G. Smith. I live in Kendall County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 14, 2016.

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

_____

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is Dan Agan. I live in Grimes County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 14, 2016.

TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

_____

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is Jennifer Ward. I live in Ellis County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 13 2016.

TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

_____

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is Chrystal Owens. I live in Limestone County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 13,2016.

TEXAS CENTRAL RAILROAD AND INFRASTRUCTURE, INC. &
TEXAS CENTRAL RAILROAD, LLC
-AUTHORITY TO CONSTRUCT AND OPERATE-
PASSENGER RAIL LINE BETWEEN DALLAS, TX AND HOUSTON, TX

_____

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is Kelly Maretick. I live in Harris County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

_____

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is Donna Baumgartner. I live in Navarro County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 13, 2016.

VERIFIED STATEMENT IN OPPOSITION TO
PETITION FOR EXEMPTION
AND PETITION FOR CLARIFICATION

My name is Cindy Blake. I live in Grimes County, Texas and will be affected by the 240-mile- long high-speed rail line (Project) proposed by Texas Central Railroad and Infrastructure, Inc. and Texas Central Railroad, LLC. (Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 12, 2016.

Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

(Texas Central). I am aware that Texas Central has filed a Petition for Exemption and a Petition for Clarification with the Surface Transportation Board (Board).

I oppose Texas Central's Petition for Exemption because it is premature. Texas Central has been hiding information about their Project from the public for years, and I do not think the Board has sufficient information to make an informed decision at this time. I question how this Project can be built, considering how Texas Central's cost numbers keep changing. Texas Central has promised the Project will be privately funded, but they will not disclose any financial information. Texas Central has also admitted it will seek federal funds. I also do not understand how Texas Central plans to attract 4 million passengers per year, or generate billions of dollars for the Texas economy, because it won't release any data to back up these claims. Texas Central should be required to fully disclose all information regarding the Project, given that it will negatively impact Texas communities and disrupt the peace and enjoyment of thousands of Texans' private property.

If the Board allows Texas Central to avoid filing a full application based on Texas Central's claim that the Project schedule requires construction to begin in 2017, the Board will be guilty of failing to protect the public interest. Texas Central's self-imposed deadline is not a valid excuse for failing to take a hard look at the Project. Full disclosure should be required, full discovery should be allowed, and the Environmental Impact Statement should be completed. The public must have adequate time to comment after all information is disclosed. Only then will the Board be in a position to make an informed decision. Texas Central has not been transparent at any point of this process, so in turn, I am relying on the Board to stop Texas Central's continuing efforts to hide information from the Texans whose lives will be permanently affected by this Project.

I also oppose the Petition for Clarification because right now I have no way of knowing whether my property would fall within the scope of the Project as there are multiple alternative alignments pending. Despite my need to know, Texas Central has arrogantly advised the Board that it has agreed to "accept" the risk that it "may acquire property rights in locations not ultimately identified as the final alignment." Even if Texas Central is willing to accept such a risk, I am not willing to do so, nor should any United States citizen suffer such abuse through the eminent domain process.

Before I can make a decision whether I need to defend my private property, I need to know that it would actually be required by Texas Central for this Project, and whether the Project was authorized. It is extremely unfair and unjust that I have to expend my limited financial assets on attorneys when my property may not end up being needed for the Project. It is not my fault that Texas Central promised investors it would meet certain deadlines, and I should not be punished for it. I am respectfully asking the Board to deny Texas Central's Petition for Clarification.

I declare under penalty of perjury that the foregoing is true and correct. Further, I certify that I am qualified and authorized to file this statement.

Executed on May 12, 2016.
