Transcript:

I would like to say that the proposed transaction, the Canadian National purchase of the EJ&E Railroad lines, would be a disaster for the area in which I live as well as other areas around the perimeter of the greater Chicago area. If the project were to go ahead at all, there would need to be some environmental actions taken or committed to by the Canadian National to have a grade separation, and to have barriers that would reduce the effect of the noise and pollution of the trains. This would greatly increase the train traffic of with no benefit to our area and questionable benefit to any area. Thank you and I appreciate you considering my comments.

Thank you
