Our agriculture land is considered by speculative investors to be "under developed" in spite of the fact it is private developed food growing business. We are blessed to have top grade fertile soil, that took thousands of years to develop. It is not replaceable, cannot be duplicated. Sections of Lee Co, La Salle Co, Henry Co where GLBT is target is non-irrigation. (STB being non agriculture as GLBT investors do not understand or appreciate this treasure.)

Please use our taxpayers money wisely, it is not a toy to play with and neither is our land. Repair Peoria Lock + Dam on Ill. River. Last year 23 million tons of cargo pass through it. Very little GLBT target area grain is supplied to Chicago, the vast majority the Ill. River or R/R to Texas or West. Do something valuable for shipping and the nation, update and maintain the River locks. Thank you

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
