I am opposing it. I feel that I can't believe that Canadian National can come in and just put down their trains where they want and the community, and the taxpayers suffer for it. Um, I feel that the Surface Transportation Board should step up to the plate and protect the people, as well as Can <broke up> in between. So I would hope that they would do that and I am all for them passing the bill in Congress that makes the STB do that. So, um, I think that's it. Thank you
