Environmental Impact Statement

CN | E&E

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

I fully oppose the CNR proposal and
ask the STB to deny their application
for the following reasons:

- ① Safety! The town of Barrington will
be cut in 2, delaying emergency vehicles
response times.
- ② Tax payer burden. Barrington will have
to bear the burden of the mitigation
costs needed for rt. 14 rt. 59 + Lake-
Cook Rd. estimated gap is between
\$100million-\$200million
- ③ No traffic caps. No way to stop CN
from increasing traffic beyond their estimates.
How can this be justified.
- ④ Traffic concerns. This is a major traffic
Route for traffic throughout the area.
- ⑤ Quality of life including rising taxes and
home depreciation, lack of community + Education
programs due to erosion of tax base. Noise.
Potential for hazardous spills and water
contamination.

Please be reasonable. Deny the application.

YOUR INPUT IS IMPORTANT!
