

Dear Ms. Quinlan:

I am a senior citizen resident of Frankfort, IL. I am very concerned about the proposed purchase of the EJ & E Railway by the National Canadian Railway. If this deal goes through, it would seriously impact the quality of life in my community.

The increased noise levels and transportation delays at railroad crossings and the increased traffic on our roads would be such that our residents would find that Frankfort is no longer the village in which we have been so proud. As a senior, I will not be able to relocate due to my age. I had truly trusted Frankfort would be the place where I would spend my retirement years in peace. Now, I find that this proposal jeopardizes this.

I am hopeful that the Board will allow comments on the sale to be at least 120 days and that the comments will get full media coverage. I know that I speak for many of my fellow residents when I protest this drastic change that this sale would bring to our community.

Sincerely,

*Mrs. Mary Maley*
