

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

~~THE~~ TO WHO IT MAY CONCERN,

I believe that by allowing these trains to pass through Barrington you would be dramatically affecting everyday life in the community. First, it would keep ambulances from getting to the hospital and this could cause someone to die. Trains are also dangerous. ~~there are accidents~~ Two people at our school already died from trains in the last year and we don't want this number to go up.
