Address 4548 Corktree Road
Address 2
City Naperville State IL Zip 60564

Transcript:

Um, we were given um information about the latest impact study and we see how negatively it will affect our Ashwood Park neighborhood and our Peterson Elementary School where our children are attending. We need a meeting for this Naperville/Plainfield area, even at Peterson School so that all of us can attend, someplace convenient, someplace where it specifically affects us. Are we going to be um supported and our houses are going to be purchased from us for the price plus uh anything that we can earn on them, if this railroad becomes part of our backyard? With the noise, with the pollution, with all of that, these are million plus dollar homes, are we completely being ignored? This is driving me nuts, I can't even believe that uh there's even a question as to the safety, the noise impacts, the pollution impacts, the hazard uh how it will affect us that we're being ignored. Thank you
