Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

School district has 7 crossings in it. Buses with children will be delayed & travel times extended. Fire station & emergency services on one side of crossings, hospital on other side of tracks. Emergency travel times ~~will~~ will be extended. I have on occasion been stopped by crossings gates down or stuck or long trains or many trains (on Metra) & traffic becomes grid locked & ~~traffic~~ travel time becomes unbelievably long. How will emergency services get through?

Barrington is configured differently than other towns with the town consisting primarily of 3 major roads. When these 3 roads are blocked, everything comes to standstill.

We can not have more trains! It will destroy the town and surrounding communities. We are not designed like Des Plaines or Park Ridge with numerous streets cutting through town.

For the safety & well being of our residents, especially our children.

No more Trains!

YOUR INPUT IS IMPORTANT!
