We strongly oppose the proposed rail going from the port north thru Kars Park. This area in Brevard County is the last area that has the grasses to support our manatees. The impact to the seagrasses, wildlife, fisheries, marine life, endangered species would be devastating. Why destroy all of this?

In 1977 we had hundreds of white pelicans that wintered here, Thursday I counted twelve. Please do not allow anymore damage by this rail.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submissions, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
