Message: I am writing to express my displeasure at having CN send freight trains thru my town, crossing six major roads at grade, increasing the freight traffic by 200%. My sons will have to travel east to Route 12, then west on Route 22 and then south on Hart Road just to get to High School, a trip that on County Line Road is walking distance. How an ambulance would get to me in a hurry is anyone's guess.

I read your article in the Chicago Tribune about how the people in Barrington are Arrogant Elitists (a label I find quite offensive) and your remark that we have to take the good with the bad in this issue. Right. All good for you - all bad for me.
