

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/28/08

I am a Registered Nurse frequently called-in to the hospital to care for patients coming out of the main Operating Room into the Recovery Room. I use Route 94 in Barrington or Lake-Cook Road in Barrington to get to work routinely and when on-call. I am very concerned about delays in getting to the hospital in a timely fashion. Please do not increase the number of trains on the EJ+E.
