Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

It is ABSOLUTELY implausible to think that TRAFFIC
congestion will not be unbearable at all rail crossings
in Barrington. To think that CN can coordinate
that well w/ the commuter traffic is suspect at best
Even with absolute coordination it would take
10-15 minutes for a CN train to clear a crossing.
Each crossing would take 10-15 minutes to clear traffic.
20x/day is over 3 hrs of track blockage.
Without grade crossing at all 3 Barrington
track/road crossings ~~is~~ NOT acceptable

YOUR INPUT IS IMPORTANT!
