Please refer to STB Finance Docket No. 35087 in all correspondence addressed to the Surface Transportation Board. Comments must be submitted by February 1, 2008.

Please consider this: Living close to this rail line is cause for much concern. The traffic congestion is already bad when ever a train goes by it causes a huge backup of cars. The noise is unbearable at night in the summer when windows are open. The blowing of horns is excruciating. The greatest cause for concern is the number of cars that must pass over the tracks on a daily basis making safety a major concern. This along with the quality of life for all who must bear the terrible noise and vibration makes increasing the traffic a terrible future for all who live along this line.

Finally, increasing the rail traffic will cause our property values to decline as no one will want to live along this line. You can not expect our community to bear the unbearable quality of life and the cost for a Canadian rail road. Please do not let this happen.
