Dear Ms. Johnson-Ball:

I am writing to strongly plead our case that the CN Railroad should be made to pay for underpasses or overpasses at all three of the very crucial crossings in the Village of Barrington. The need for access to the hospital and schools is extremely important, as is the huge change to our quality of life and our right to safety.

I understand that in the past communities have made grade improvements to their towns, but in this case, we have an existing town and roads and the CN Railroad is going to come in and drastically change everything. They will make millions of dollars on their use of the tracks that run through our town, and it is only fair that they pay to keep our roads safe for our residents.

Sincerely,
