Transcript:

I wish to call in opposition of the CN acquisition of the EJ&E Railroad. I stand opposed to this acquisition because it would create significant vehicle delays at the railroad crossings, which in a town which is already congested with traffic problems and the safety of the crossings, mainly the emergency response times, as well as the increase in noise, vibrations, and pollution, is totally unacceptable and neighboring cities and villages that use our roads for their commute to and from work or other activities will also feel the impact. Thank you for considering my comments.
