How will CN's proposed acquisition of the EJ&E impact you?

As our home backs to the tracks
this is a devastation. The value of
our home will plummet. This is
not to mention that the quality of
life in Barrington the surrounding
communities will be ruined. My
children ride on buses that cross
these tracks. It is only a matter of
time before a tragedy occurs if
the increase in traffic comes to fruition
The village fire & rescue services will
be severely compromised as they
will not be able to access the homes in a
timely manner. This is not to mention
the toxins being carried on the rail cars
from my home.
