First of all, we received this on Feb 2!
This proposal is wrong on all levels except being beneficial to E J & E and the city of Chicago. We live in Aurora and can see the change in noise levels of train whistles since they made it mandatory to sound them at all crossings all the time. The noise especially in the warm months when windows and doors are open is incessant. Add more trains more often and we will have a nightmare.

Again, when we are told something is beneficial, it always means beneficial to the financially connected who are able the same a proposal like this down the throats of the people who will suffer.

Why should Chicago have fewer trains and the surrounding suburbs have more? It's simple. Chicago and E J & E have locked arms for their benefit to the detriment of others.
