Company**

STB Finance Docket No. 35087

I wish to add my protest to everyone else. Barrington is a small town, which is very negatively impacted by the railroad. The tracks cross several streets and will cause massive back-ups. This means ambulances and fire trucks will have a terrible time getting to the hospital or fire. It could be fatal for the person in the ambulance. The boss told "Go around". That will be difficult to do. Plus, the "go around" streets will become congested. The CN Railway will be a disaster for this town, and will probably destroy it.
