Message:

Our community's safety is in danger. Should the CN acquisition of EJ&E be approved, the traffic in the heart of our town will become gridlocked several times each day. Emergency response teams will be compromised, and our school children's safety is in jeopardy. CN's financial interests SHOULD NOT TAKE PRECEDENCE over what's best for Americans. CN's safety record speaks for itself. Please take responsibility NOW for environmental safety. The future is in your hands. We are depending on you. Thank you.
