US Transportation Safety Board
RE: Docket No. 35087
Section on Environmental Analysis
395 E. Street SW
Washington, DC 20423

To Those in Charge of Endangering and Ruining My Life's Dream:

Do any of you live with **25 trains** going through **your** neighborhood everyday? Is your family in jeopardy of hazardous materials passing by their home? Will your property value go down in the next couple of months? (Our values have already gone down).

It seems, Canadian National believes it is perfectly fine for other people to be inconvenienced and put in danger. And it appears they do not care about other people losing what they have dreamed of and saved for all their lives. Why would Canadian National care - it's not happening in their neighborhood. I'd bet a weeks salary the president and CEO don't live anywhere near a train, let alone a train track.

Think about this - if you would have **25 trains** go through your neighborhood **first**, then maybe I might consider **25 trains** through my neighborhood of Prestwick in Frankfort, IL. If it is safe enough for Canadian National's neighborhoods, then it will be safe enough for mine. Right???

But that's the real issue. Canadian National is not allowing **25 trains** to go through their neighborhoods. So why are you going to let them go through mine????

Sincerely

GINA WEST

Scared and Upset Resident in Prestwick of Frankfort, IL
