Message:

Re: STB Finance Docket No. 35087. As a resident of Aurora, IL living adjacent to the EJ&E RR line, I strongly urge that measures be taken to limit train traffic and/or improve crossings and sound deadening measures to prevent increased noise and traffic problems. I live near two grade crossings of the RR line (Rt. 34 and 87th St.) which have, over the years, proven to be dangerous and inadequate. Traffic backups are already a problem and safety is nearly nonexistent. In addition, late night trains blow their horns at all hours, disrupting sleep. I respectfully recommend that measures be taken to convert grade crossings to elevated crossings and that noise reduction measures be implemented to preserve quality of life for affected residents and increase safety. In my opinion, tripling the RR traffic on the EJ&E line without making substantial improvements will result in increased noise, pollution, death, and reduced quality of life for homeowners adjacent to the line.
