Dear Congresswoman Melissa Bean,

I have lived in the Barrington area for fifteen years now and have two children in this school district. Our traffic in this area is bad enough especially on Lake Cook Rd. where the EJ&E railroad tracks passes over. When the high school and two middle schools let out the traffic on that road alone is extremely terrible and backed up. I am very concerned about the increase in trains if the CN is allowed to do this. Not only will the traffic be more congested I am very concerned about the safety issues for all the children of this area. I am very against what the CN is trying to do. Please fight against this for all the people with the same concerns in the Barrington area and outlying areas as well.

Thank You

Greg Peterson
