As A person who travels around Chicago with my business on a daily basis, I am thoroughly against this proposal. I know what our Community would be in for if this deal was to pass. I have personally experienced sitting at a train stop on the South side of Chicago suburbs, while toxic materials roll through these towns in the middle of the day. These trains randomly stop and wait for up to 30 minutes while people sit in their cars and either wait or back up and turn around to find alternate routes to escape the wait. Can you imagine a small town like Barrington dealing with this mess? I don't think so! I say NO!!! to this deal.
