Transcript:

I am leaving a message to tell you of my concern regarding the CN purchasing the EJ&E line. I am significantly opposed to it because it will be many, many delays with congestion already on our crowded roads, the safety of the crossings, there are many young children and teenagers here, I believe there will be an increase in the cause of injuries and accidents, and I believe it's just too many trains going from 16 a day to 42 a day in my community and area to be a safe and healthy place to live and learn. We need to be more aware of noise, vibrations, and pollution and we have to get better at keeping our world green and not congesting it with additional trains going through our neighborhood. Thank you
