Message: I am 100% against the acquisition of the EJ&E by the CN because it will negatively impact the barrington community by jeopardising the safety of all of the high school students who have to cross the EJ&E tracks to walk home from school. The increased number of trains through the community will increase the possibility of a student/train mishap. There have been a number of students hit by trains in the last few years and this acquisition would increase the odds of more deaths. It is irresponsible to ignore the safety of children in the pursuit of profits and i urge you to not allow this acquisition to take place.
