Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: Aug. 27, 2008

The need for safe transportation lines around the Chicago hub is self-evident. The need to disrupt communities is not. If the EIT & E stands to increase its revenue from this proposal, why is it difficult for them to provide fully for the over passer necessary for the safety, accessibility, in emergencies and overall community benefit needed with their proposal.

What are they thinking !!! Profitability for them on the backs of the citizens?
NO WAY.
