

Dear Phillis Johnson- Ball and Surface Transportation Board,
As residences of the village of Mokena, four voices (Tom, Diane, Sarah, and Jessica), would like to express their disapproval of the planned expansion of the railroad. We are not in favor of this project and want to present to you our concern for increased railroad traffic in our area. We ask that the CN stays out of this area and the EJ&E remain as it is. More trains per day and delay crossings possibly exceeding twenty minutes are not favorable to us. Please do not let the expansion take place. This would be a serious detriment to the residents of these communities in numerous ways. Please consider the complaints of the residents and reject this proposal of the CN's coming through. Thank you.
