Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

CN | EJ&E

Environmental Impact Statement

Date: 27 Aug 2008

Comments must be submitted by September 30, 2008.

The increase in freight trains, both in number and length, through Lake Zurich and Barrington will greatly increase traffic congestion in our already congested towns.

If CN is granted permission to acquire the EJ&E line, as a minimum, it must be made to pay the mitigation costs needed to provide improved grade crossings at the intersections/crossings affected.

It is utterly unreasonable to require the communities that will be harmed to pay the costs of mitigation.

If this will benefit Chicago, let Chicago help pay the mitigation costs.

We appeal to the STB to act in the interests of the citizens who will be adversely affected.

Thank you.

Daniel Lane
