Draft Environmental Impact Statement for the  
Proposed Canadian National Railway Company  
Acquisition of the Elgin, Joliet and Eastern Railway  
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

I have been a resident of Barrington for 25 years and have contended with the low volume of train traffic on the Elgin, Joliet & Eastern Railway. I believe the current freight train, daily volume, is 2 to 3 trains per day. It is truly unreasonable, unsafe and intrusive to increase freight train traffic to up to 25 per day. The existing railway crosses ~~three~~ <sup>three</sup> major arteries than our community, Route 14, Route 59 and Lake Cook Road. Estimates of building three grade crossings is estimated at 80 million dollars per crossing. 240 million dollars to address the community is an indicator of the financial drain of this proposal as well as the safety, noise, pollution and ecological impacts of these communities.

I object to this proposal as a resident, tax payer and family member of the Barrington Community.

YOUR INPUT IS IMPORTANT!
