Transcript:

I'm in favor of the Canadian National taking the Elgin track. It's best for the entire Chicagoland area. The people that are griping about it are the ones up there where they have much less pollution, less in traffic, and they're just being selfish, they don't want the trains up there, but there isn't that many trains. I've been next to the Canadian National track for 30 years and it hasn't bothered me, but if that's for the community that gets that rail they can circle around, less traffic, less hazards, less accidents. So that's it. Talk to you later. Bye
