

Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: Aug 27, 2008

Comments must be submitted by September 30, 2008.

This proposal represents unacceptable and irreversible disruption, destruction, change to this community's character, attractiveness, to residents, safety for residents and their children.

It simply is neither fair nor defensible for one group of people with a vested commercial interest to threaten the life style, security, financial wellbeing of another group who have spent decades working hard, participating in community neighborhood improvement, supporting schools and libraries and hospital, and fire fighters and police - only to have all this work jeopardized and without defense brought has to move more efficiently around Chicago.

People in this community care deeply and have invested heavily in its protection and development. My family has raised our sons here, built several homes, volunteered in the schools and for Citizens for Conservation. We have great pride and love view this proposal with anguish and alarm.

Your DEIS whitewashes and understates the impact of the presence of 25 trains a day crossing our vulnerable human + ecological environment.

YOUR INPUT IS IMPORTANT!
