Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

My main comments concern safety and the effect that more trains through downtown Barrington would cause.

I have 4 children currently living at home approx. 2 miles East of downtown Barrington. My safety concerns relate to my children as they walk or ride their bicycles over the tracks. My eldest son has Down Syndrome and I am finally feeling like he was able to safely ride his bike to work. Now my 20 year old son will not safely be able to cross with this addition of 20 trains daily.

Currently it takes me 30-40 min to drive 2 miles on Lake Cook Rd West to get to town. I don't have this kind of time and no one in Barrington can withstand this extra train traffic.

Rebuilding our whole crossing areas in 5 areas would work. if trains went over traffic.

Thank you for listening
