Trains can do alot of damage via spreading Biphazards, crashing into homes, etc
Being A Visionary, adding "CN", Canadian National
Railroad to our communities would take us back
to A railroad mentality. Let's also consider
the effects on the eco system, not to mention
additional pollution - sound as well as environmental.
Restrictions should be imposed after carefully studying
the ramifications of this purchase. Put A Rush
on that! Can anything be done to prevent this
sale? The only benefit it seems is for the CN Railroad
The bottom line is almost always money - If this has
to be, then they definately should take the responsibility
as An ethical, morally + financially responsible company
Viable to all our lives, businesses & Children, Environ-
ment & Emergency response teams. Safety @
Crossings, lengthened time in our cars, vibration damage,
which they should be + will be (per ordinances in effect) responsible
for (\$\$) as well as No Train horns from midnight to 6 AM.
Stop the Creation of A Train yard. Where is their Contribution
to eliminating/reducing old transportation styles? Big Concern is
Terrorism - How will they & have they given any thought to guarding trains.
We Are former Expatriots from the middle east where we were Bombed. Trust me -

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.

They Aim to Kill non-Islamists. Their thinking is unlike yours + mine. A train
just like airplanes could be used by terrorists. How about the terrible thought of Bio-terrorism?

YOUR INPUT IS IMPORTANT!

Think About it.
