

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/28/08

Has anyone checked into Mayor Dailey wanting this sale to go thru & maybe the city is getting huge \$ (loobiest) to use toward the Olympics? This is a possibility & should be checked out. CN has deep pockets. & the city needs big money to prepare for the huge event.

Listen to the people - they do not want this sale to happen. With the way the news investigate everything so thoroughly & what a story it would make if anyone was being paid off by CN. But it would be too bad. Date for all the communities along the E.E.T. Even most representatives (Senate, House, Town Presidents etc) do not want this sale. I don't think CN's reasons are strong enough to override everyone else. It is our right to have a say in the sale that goes thru our back yards. We all will be the losers if CN gets their way.

STOP CN or they will STOP US ON
THEIR TRACKS?
& we will pay dearly forever after.

[illegible]

Joliet
