Message:

I oppose the EJ&E railroad acquisition. This will create major traffic problems not only in New Lenox, IL but also all throughout the south suburbs of Chicago. One intersection that will be greatly affected is Route 30 and Gougar in New Lenox. Said intersection already experiences high traffic delays at both morning and evening rush hour and increased train activity will only worsen the problem. In addition, with the relocation of Silver Cross Hospital to Route 6 and Cedar, the additional freight train traffic is likely to result in the loss of life. Ambulances have no alternative means to cross the railroad tracks at Route 30 and Gougar or Route 30 and Vine or Route 30 and Cedar. I think this is the biggest hazard to the well-being of our local citizens.
