

EO-2417
10-27-14

The Canaveral Port Authority plans to file a request with the Surface Transportation Board (Board) for authority to construct and operate approximately 11 miles of new rail line to Port Canaveral (Port) in Brevard County, Florida. The proposed Port Canaveral Rail Extension would also utilize approximately 17 miles of existing rail line at the National Aeronautics and Space Administration's John F. Kennedy Space Center (KSC) to make a connection with a main line of the Florida East Coast Railway. The proposed rail line would begin near the Port's North Cargo Area, extend west over the Banana River, enter KSC on Merritt Island south of Kars Park, and then turn north through KSC grounds where it would connect with KSC's existing rail line. The construction and operation of this proposed project has the potential to result in significant environmental impacts; therefore, the Board's Office of Environmental Analysis has determined that the preparation of an Environmental Impact Statement is appropriate pursuant to the National Environmental Policy Act.

Two public scoping meetings will be held to provide the public with an opportunity to learn more about the proposed project and provide input on the environmental review process. The public scoping meetings will be held at the following times and locations:

Nov. 18, 2014

5:00 to 8:00 p.m.

Eastern Florida State College

Titusville Campus

John Henry Jones Gymnasium

1311 North U.S. 1

Titusville, Florida 32796

Nov. 19, 2014

5:00 to 8:00 p.m.

Radisson Resort at the Port

The Convention Center

8701 Astronaut Blvd.

Cape Canaveral, Florida 32920

STB Docket No. FD 35852
