The attached documents pertain to a proposed railroad abandonment in Harris and Chambers Counties, Texas. Union Pacific Railroad company intends to seek authority from the Surface Transportation Board to abandon approximately 2.23 miles of rail line in Baytown, Texas, which could result in the removal or alteration of a vertical lift span bridge over Cedar Bayou, a historic property that is eligible for listing in the National Register of Historic Places. The purpose of this notification is to (1) notify the ACHP of a finding that an undertaking may adversely affect historic properties, and (2) invite the ACHP to participate in Section 106 consultation. Please contact me at the number below if you need additional information.
