

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 08/27/08

I am strongly opposed to the CN acquisition of the EStE Railway Co. It will impact our schools, traffic and way of life in our area.

To allow this to move forward without addressing all the identified flaws would be a complete injustice to the people of this area.

Thank You

Karl
