ENTERED
Office of Proceedings
May 22, 2017
Part of
Public Record

To the STB,

Please deny the Motion for Protective Order by the GLBT to not reveal their finances and to hide the identities of their principle stockholders and their holdings and other documents. No protective order should be granted with such an undertaking that will effect so many citizens in three states. If these stockholders are so inclined to invest in this undertaking, they should be able to make public their identities and other pertinent information. It should not be something they are ashamed of or afraid of sharing if they are investing in this project. Hiding this valuable information makes me wonder what other important information is being hidden from the public. The GLBT plan will negatively effect large and small communities economically, environmentally and socially. Such a plan should be totally transparent so please deny the Motion for Protective Order by the GLBT.

Sincerely,
Mona Siebel
