Transcript:

I would basically like to just tell you to not approve the acquisition in it's current form at least. It will be a devastating impact on our community in Barrington trying to get the kids to school trying to get to the train, to get to work and just the danger in all the crossings. And so I just think that if they are going to buy it, they need to get a kind of serious impact and I think they should pay for that impact and not profit from it especially with you know with grade crossings and that type of thing. That's it. Thanks.
