Subject: CN Railway Company/EJ&E, STB Finance Docket No. 35087

Dear Secretary Quinlan:

I am concerned about the rail congestion in our community. There is a plan to rectify the situation by rerouting freight train traffic to an exterior rail line curving around Chicago. However, this would involve CN Railway purchasing part of the EJ&E line that makes up that curve of track and would first require certain approval. I hope the residents of the area will not have to wait too long for that vital permission to be granted.

As I live right near the Kensington Road crossing, I am always being stopped at railroad crossings with delays that usually take half an hour. This is quite an inconvenience and this level of congestion is going to have a negative impact on the area's economy. Our quality of life is being eroded by this situation, so something needs to be done. CN's project has great potential. Please do not hesitate to support this effort. Thank you.

Sincerely,
