Public Record

Dear Sir or Madame,

I'm writing inform you that I am against the construction of the proposed GLBT railroad, highway, and now airport. This proposed construction project is pointless on all levels. The damage it will do to families, as well as the environment is enough to deny them access to build this. They'll be snatching up good farmland from hard working families and turn it into projects which will help no one. They have yet to prove how beneficial this will be and thus should be denied the right to build.

Along with denial of construction, the people have a right to know who is responsible for this project. This company needs to reveal who their investors are because if they are so confident this project will be very beneficial to the area then they have absolutely nothing to hide from the public. Deny them their Motion for Protective Order and let the public know where the money for this plan is coming from.

In short, please deny them access to begin this project. It is unnecessary and will do more harm than good to the people and the environment around it.

Thank you for your time,

David F. Scheppler
