DAVE NAVECKY - SURFACE TRANS. BRD.

ATTN: DOCKET No. FD 35952
395 E ST. SW WASHINGTON, DC 20423-0001
13 APRIL 2016

EPA finds rail yards transfer pollutants (CHICAGO TRIBUNE).

Railroads "emit a complex mix of pollutants, contain over 140 cancer-causing substances" (DOT.CA.GOV). Railway transportation as a serious source of organic and inorganic pollution (NCBI.NLM.NIH.GOV)

Damages from rail vibrations (BBC.COM), (NTL.BTS.GOV) Damaged drainage (NW TIMES.COM).

Abandon "GLB" now and reroute money to improve roads. Trains bring noise, long delays (STAR TRIBUNE.COM). Lower property values by rail line (SIGHTLINE.ORG)

Best use is to improve current roads. End this proposal as has 100% opposition. Harm to the aquifer... (BLE-T.ORG) The US is "losing 2 acres of.. farmland every minute" (MIT.EDU) and do not need this taking of Land to worsen it. Illinois ranks number 7 at (77%) farmland, it does not need a railroad as farming is a business and no good will come this (STUFFABOUTSTATES.COM)

▶ "Indiana Gateway project will relieve much of the congestion in Chicago area. End "GLB" now. Unwanted. Unneeded. (TRAINORDERS) Eminent Domain can not be used by private Co.

This is not in "public interest" in any manner so eminent domain would be unlawful. What're Investors' (Names, amounts, countries' origins, etc.)?

Project endangers Public safety, environment at all levels.

Stop "GLB" now. Invest Money to improve roads.
